VIDEO PRODUCTION

ALVIN GAMBOA

VIDEO EDITOR · MOTION DESIGNER

Video editor and motion designer who turns raw footage into **scroll-stopping, results-driven content**. I run my own production brand, ARG Video Production, and edit for international clients — from real estate tours and personal-brand reels to fitness product ads — handling the full chain: script, edit, motion graphics, color and sound. Every frame is built to hook in the first second and sell by the last.
